XML Publisher TRAINING MANUAL

A. F. FERGUSON & Co.
CHARTERED ACCOUNTANTS

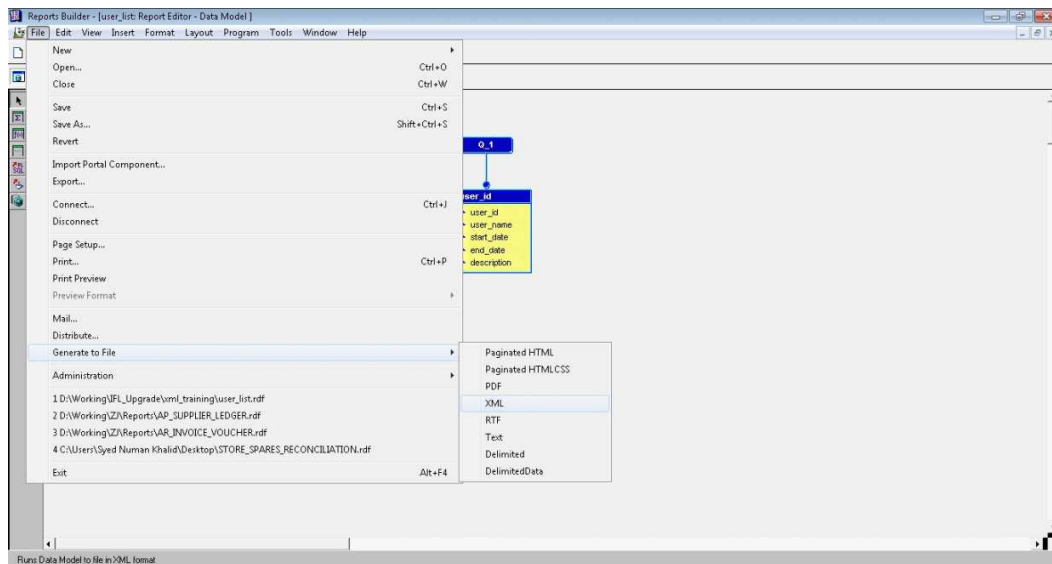

Pre-Requisites:

Install XML Publisher

Steps to create and design .rtf for xml.

1. Generate and save XML of report.

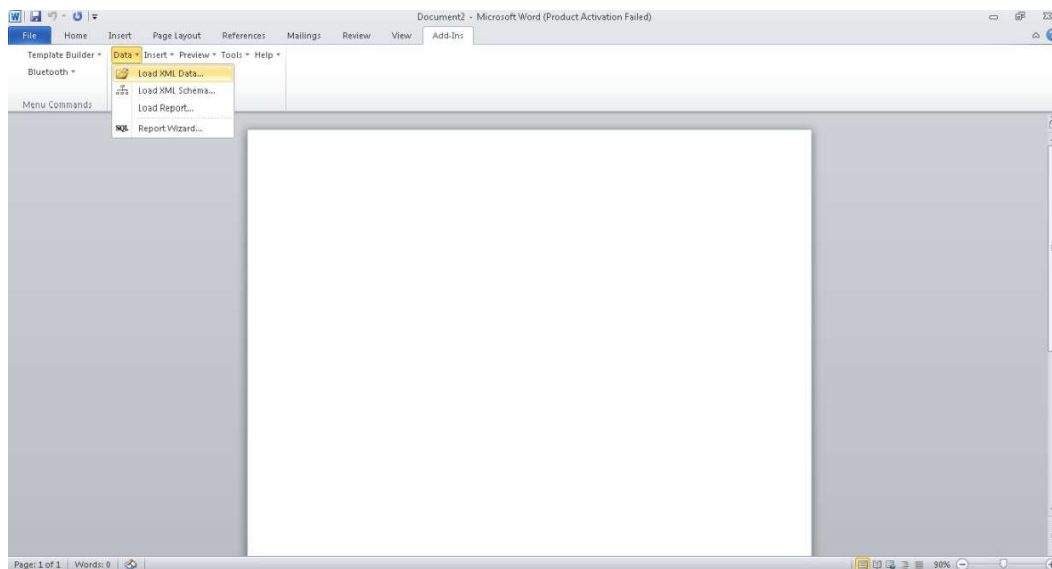

- Go to File -> Generate to File -> XML

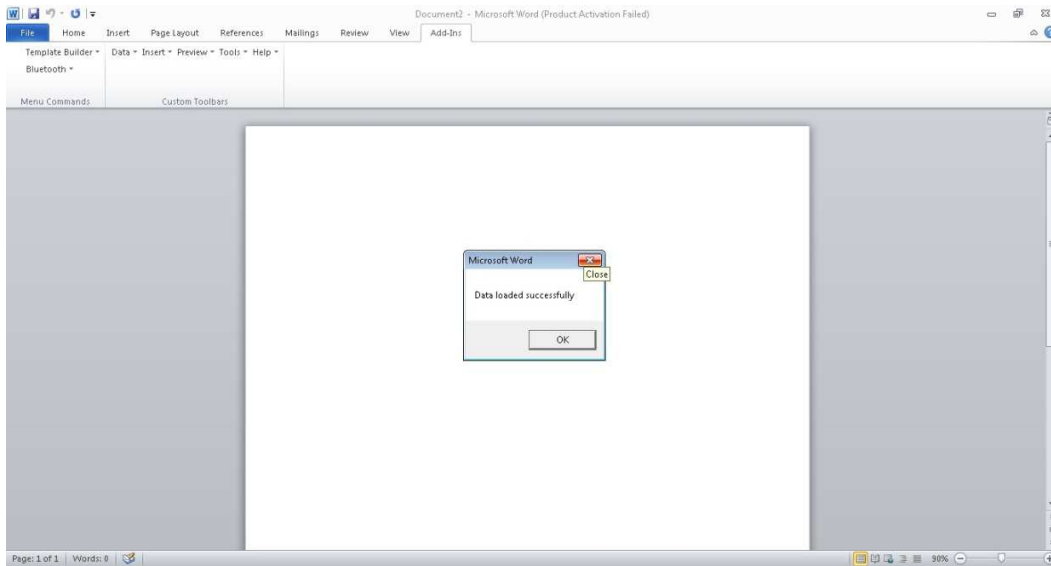

2. Save xml file.

3. Open MS Word and load XML by following steps:

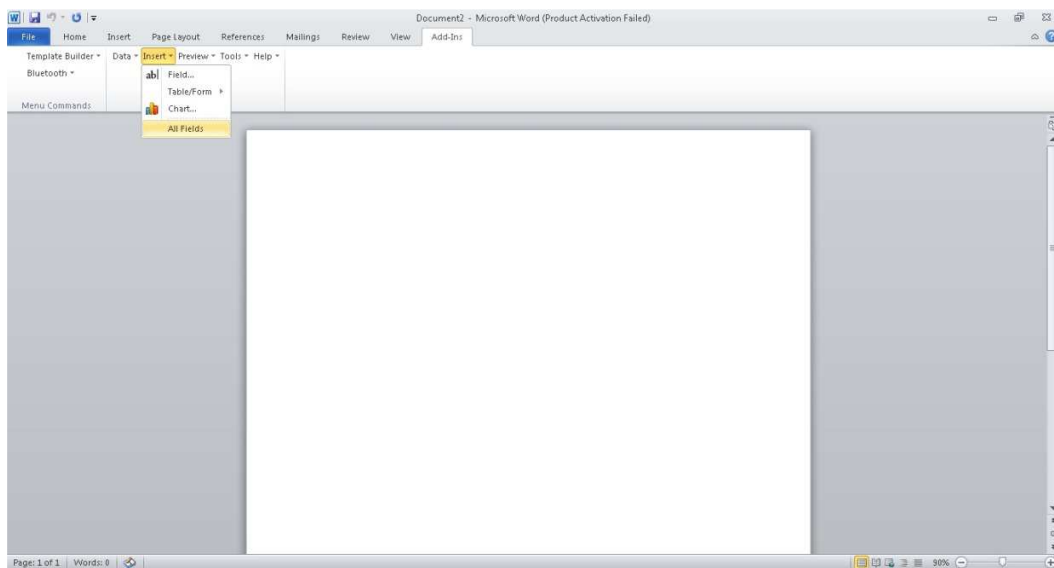

- Go to Add-Ins -> Data -> Load XML-Data

4. Insert all-fields by following steps:

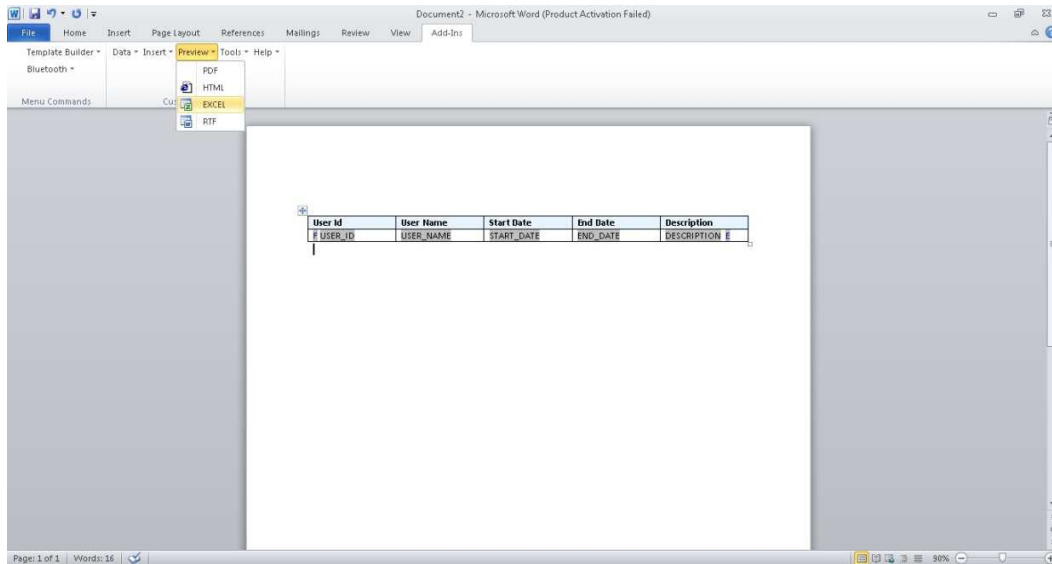

- Go to Add-Ins -> Insert -> All Fields

5. Adjust fields as according to format requirements.

6. To view output of report by following steps:

- Go to Add-Ins -> Preview -> Excel

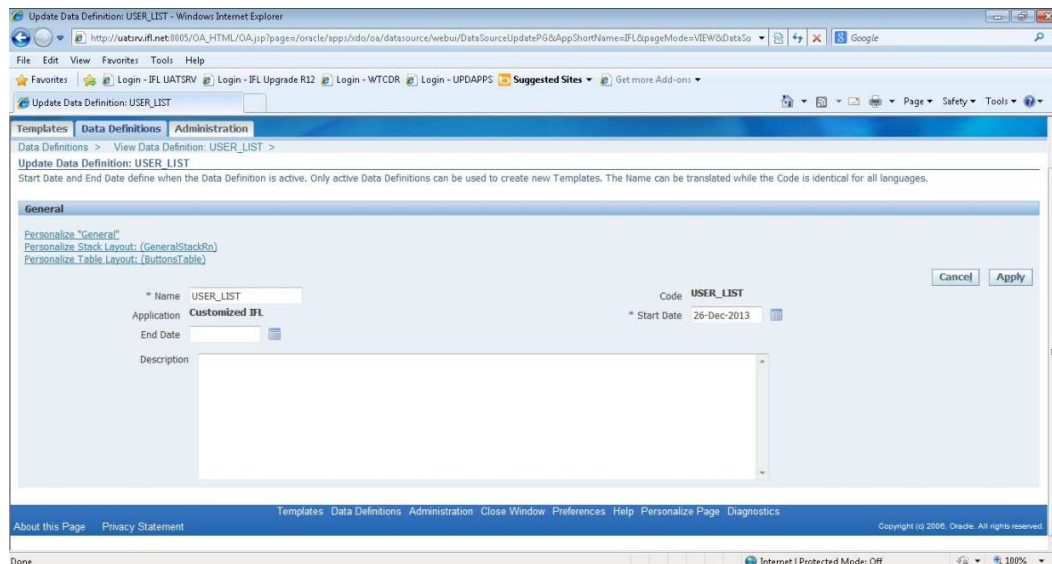

Note: The format created in word as .rtf and filename of .rtf should be same as of .rdf.

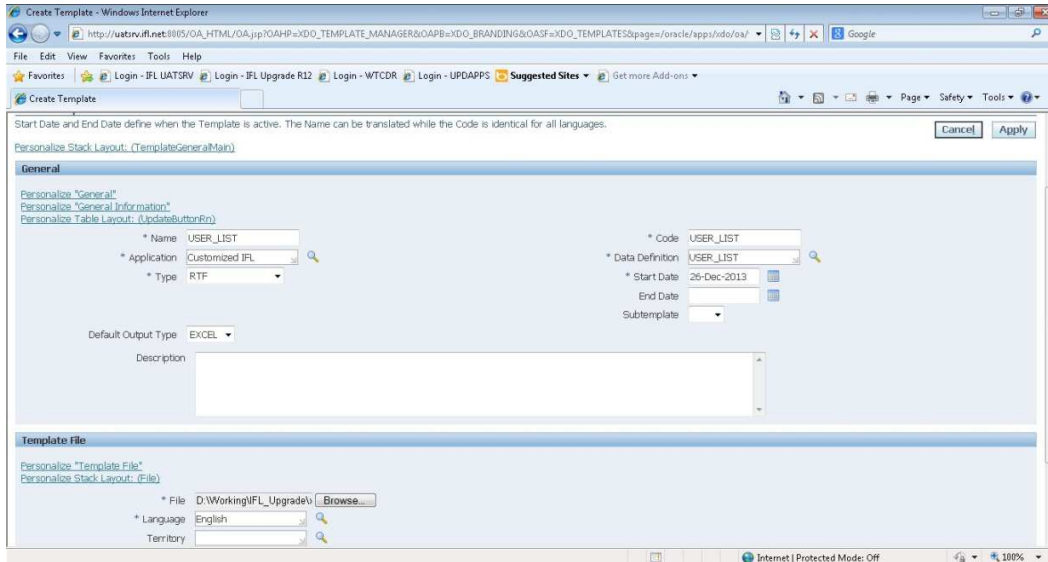

Steps to integrate xml report

1. Switch Responsibility to XML Publisher

- Go to Data Definition Home.
- Create Data Definition

2. Go to Templates Home
 - Create Template

Note: While integrating .rdf default output must be in XML.
